**TOTAL BLOCKS PRODUCED PER  
SHIFT: 71500 blocks**

We have achieved the maximum  
production capacity by working on  
operations

We can produce blocks with strength from **M30** to **M55**. Thickness of the pavers varies from 50mm to 100mm. We can produce **Retaining stones** and **Curb stones** using our machineries. Continuous investment on R&D has contributed wide range of products in our company. The offered products are admired in the market for their **excellent finishing**, accurate dimensions, smooth textures and aesthetic designs. Moreover, these products are tested on several quality parameters to ensure zero defect.

We have joyfully completed some of the most challenging projects in the city. We manufacture these blocks in compliance with the **ISO standards**, utilising superior grade raw material that is procured from the **vendors of high repute**. Moreover, to manufacture our products in bulk quantities, we employ equipment and technologies that significantly accelerate the production rate

## Vision:

To be the market leader in providing **quality products** with mass manufacturing and **affordable price**. To provide end-to-end **construction solution** with a view to become the leading Paver Block company in India.
